Wines not of the house

Alongside the wine we sell by the glass, we are bringing some rare beasts to the Bear wine list to showcase some of the great stuff we love to drink. These wines are often from small producers who literally live and breathe making win.

We think each of these wines is worth discovering and we hope you enjoy them while you can.

We will only ever get a small amount of each wine in order to keep the list fresh, exciting and evolving so when they're gone, they're gone.
